(54) **BAG-LIKE NET FOR WASHING MACHINE**

(57) Abstract:

PROBLEM TO BE SOLVED: To take out a bag containing laundry on a water surface without wetting hands by fixing a float to an upper end on the side of a contents take-out port provided on one side.

SOLUTION: In this bag-like net for a washing machine, one or more floats are fixed to the upper ends 3 and 3' on the side of the contents take-out port provided on one side. Thus, since the bag-like net for the washing machine stands still in the state of floating on the water surface with the floats on a head by the bouyancy of the floats simultaneously with the timer stoppage of the washing machine, the net is easily caught on the water surface and is taken out without wetting the hands.
